INDIAN INSTITUTE OF TECHNOLOGY MADRAS

Office of the Dean (Students)

Ref. No.: IITM/AA/2026/120 Date: 24 September 2026

COMMUNICATION TO ALL STUDENTS

Subject: Temporary Disruption of Regular Academic Activities – Faculty Concerns and Institutional Developments

Dear Students,

The Institute wishes to inform all students from **First Year through Fourth Year** regarding certain developments affecting the conduct of regular academic activities.

The Institute has taken note of the serious developments reported from another Indian Institute of Technology following the reported death of a student on **18 September 2026**. The circumstances surrounding the incident, including allegations concerning academic pressure, examination-related disciplinary proceedings and other matters subsequently raised by students and faculty, have resulted in significant concern within the academic community.

Following these developments, concerns have been expressed by faculty members and academic communities at various higher educational institutions regarding **student well-being, examination practices, academic pressure, disciplinary procedures, and the mechanisms available to students for raising grievances**.

The Institute understands that some faculty members and academic staff at IIT Madras have also expressed their concerns in connection with these wider developments. Consequently, the conduct of certain regular teaching activities and classes may be affected temporarily.

The Institute is presently coordinating with the concerned Departments and faculty members to assess the situation and determine the appropriate course of action with regard to: Regular classroom teaching; Laboratory and tutorial sessions; Internal academic activities; Attendance requirements; Scheduled assessments, wherever applicable; and Academic schedules affected by the temporary disruption.

Students will be provided with further instructions through the Institute's official communication channels once the position has been reviewed and the revised academic arrangements, if required, have been finalised.

The Institute further wishes to reiterate that **student safety, dignity and well-being remain matters of serious institutional concern**.

Students experiencing academic, personal or other difficulties are encouraged to approach their respective Department, Faculty Advisor, Student Affairs Office, Counselling Services or other designated student-support mechanisms rather than dealing with such difficulties in isolation.

Students are also requested to refrain from circulating unverified information, screenshots, messages or allegations concerning the ongoing developments through unofficial channels. Any communication issued by the Institute will be made available through the appropriate official channels.

The Institute recognises that the present circumstances may cause uncertainty among students and their families. Further communication will be issued as soon as the academic arrangements have been appropriately reviewed.

Students are advised to **continue their academic preparation using the resources already made available to them** until further instructions are issued.

By Order
