# ACADEMIC EXAMINATION NOTICE

Semester-II Online Examination for Students Progressing to Semester-III

*(Applicable to students who were unable to appear for the Semester-II End Semester Examination due to institutional and administrative circumstances beyond their control.)*

Ref. No.: IITM/AAD/2026/163 Date: 10 October 2026

## 1. Background

The Academic Affairs Department hereby notifies all students who have progressed to Semester-III (Second Year) and were unable to appear for the Semester-II End Semester Examination owing to institutional and administrative circumstances beyond their control that the pending Semester-II examination shall now be conducted through the Institute's official online examination platform.

The Competent Authority, after reviewing the academic status of the affected students and considering the necessity of maintaining academic continuity, has approved the conduct of the pending examination through a secure online proctored mode.

## 2. Examination Schedule

The Semester-II End Semester Examination shall be conducted as follows:

| Particular | Details |
|---|---|
| Examination | Semester-II End Semester Examination |
| Mode | Online (Remote Proctored) |
| Examination Platform | IIT Madras On-Exam Portal |
| Date | 13 October 2026 (Tuesday) |
| Time | 06:00 PM – 10:00 PM (IST) |
| Total Duration | 4 Hours |

Students are advised to log in to the examination portal sufficiently in advance to complete identity verification, equipment checks, and system validation before the commencement of the examination.

## 3. Examination Syllabus

To facilitate academic preparation and provide clarity regarding the scope of the examination, the syllabus has been streamlined for the convenience of the affected students.

The examination shall primarily assess the following areas:

- **C Programming**
- **Linux**

The examination shall primarily consist of programming-oriented and coding-based questions intended to evaluate students' understanding of fundamental programming concepts.

## 4. Remote Proctoring and Examination Monitoring

The examination shall be conducted under a secure Artificial Intelligence-assisted remote proctoring environment.

The proctoring system shall monitor, record, and analyze various examination parameters including, but not limited to:

- Eye movement tracking
- Face positioning and identity verification
- Presence of additional individuals
- Background and environmental noise
- Camera visibility throughout the examination
- Microphone activity
- Browser and application activity
- Unauthorized device usage
- Suspicious behavioral patterns identified by Artificial Intelligence

Any activity considered suspicious may be automatically flagged for post-examination review or, where deemed sufficiently serious by the automated monitoring system or authorized examination officials, may result in immediate suspension or termination of the examination session pending further investigation.

The Institute reserves the right to review all recorded examination footage before declaring the final examination results.

## 5. Examination Timing

The examination has been deliberately scheduled during the evening and night hours following a detailed academic and technical assessment.

This schedule has been adopted to:

- Minimize external environmental disturbances.
- Reduce background noise that may interfere with remote proctoring.
- Provide students with a comparatively quieter examination environment.
- Improve the effectiveness and reliability of Artificial Intelligence-based examination monitoring.

Students are nevertheless responsible for arranging a quiet, well-lit, and disturbance-free examination environment.

## 6. Student Responsibilities

Before the examination, every student shall ensure the availability of:

- A compatible desktop or laptop computer.
- Stable broadband internet connectivity.
- Functional webcam.
- Functional microphone.
- Continuous power supply or adequate battery backup.
- Updated web browser compatible with the IIT Madras On-Exam Portal.
- Valid Institute credentials for portal access.

Students are advised to carefully read all examination instructions and technical guidelines, which shall be circulated separately before the examination.

## 7. Important Instructions

All concerned students are required to:

- Log in to the designated examination platform at least 30 minutes before the commencement of the examination.
- Keep their Institute identity credentials and any required identification available for verification.
- Ensure that their webcam and microphone remain active as instructed by the remote-proctoring system.
- Refrain from using unauthorized applications, electronic devices, browser tabs or study materials during the examination.
- Maintain a quiet, well-lit and suitable examination environment.
- Follow all instructions issued by the Examination Department and the Controller of Examinations.

Students should review the applicable examination instructions and technical guidelines before the scheduled date.

## 8. General Conditions

- This notice applies only to students in Semester III whose Semester-II examination remains pending.
- Students who have already completed the relevant examination are not required to appear under this notice.
- The examination shall be conducted in accordance with the applicable examination regulations and instructions issued by the competent authority.
- Technical difficulties shall be addressed in accordance with the applicable examination guidelines.
- Any further clarification or amendment concerning the examination schedule shall be communicated through the designated official channels.

## 9. Clarification

Students are advised not to experience undue anxiety regarding the examination.

The streamlined syllabus has been prepared to facilitate a smooth assessment process while ensuring that the essential learning outcomes of Semester-I are appropriately evaluated. Students are encouraged to revise the prescribed topics thoroughly and complete all necessary technical preparations well before the scheduled examination date.
